Citrix certification program

The Citrix certification program is organized into three levels of certification, which are based on job roles: Administrator Series, Engineer Series, and Architect Series. The administrator-level Citrix Certified Advanced Administrator™ (CCAA), takes the Citrix Certified Administrator™ (CCA) one step further with in-depth product specialization. The advanced, engineer-level Citrix Certified Enterprise Engineer™ (CCEE) and architect-level Citrix Certified Integration Architect™ (CCIA) develop and prove real-world skills required to deliver end-to-end virtual computing, from the datacenter to the desktop.

Prepare for certification

NEW! CCEE and CCIA for Virtualization

The new CCEE and CCIA for Virtualization deliver:

- Alignment with real-world engineer and architect job roles
- Update paths with streamlined requirements for existing advanced certificants
- Certification on industry-recognized solutions, enhancing relevancy and recognition
- 3 year validity - guaranteed!

Citrix Training

In order to adequately prepare for a Citrix certification exam, it is highly recommend that individuals take the related preparatory training. Citrix training courses focus on building a skill set that addresses complex testing scenarios, but more importantly, the demands of on-the-job problem solving.

Citrix training courses are available in four modalities: classroom, live virtual, self-paced online, and custom. View all training at www.citrixeducation.com > Training

Exam Preparation

In addition to taking the recommended training courses, know what to expect on test day by downloading the related certification exam prep guide. Each exam prep guide provides important information you'll need to be successful, including the skills measured, topics covered, exam format, and most importantly, the recommended preparation. Access exam prep guides at www.citrixeducation.com > Certifications > All Exams Select your exam > Download 'Exam Prep Guide' from exam description page.

Citrix certification program

Administrator Series	Engineer Series	Architect Series
<p>Citrix Certified Administrator™ (CCA) For IT administrators, the CCA validates the skills necessary to implement a specific Citrix product.</p>  <p>Citrix Certified Advanced Administrator™ (CCAA) The CCAA takes the CCA one step further by certifying in-depth skills such as monitoring, optimizing and troubleshooting.</p> 	<p>Citrix Certified Enterprise Engineer™ (CCEE) for Virtualization For seasoned professionals, the CCEE certifies the ability to integrate multiple Citrix products into a comprehensive virtualization solution, as well as smoothly plan and execute Citrix implementations.</p> 	<p>Citrix Certified Integration Architect™ (CCIA) for Virtualization The highest level of certification available, the CCIA proves the ability to design and analyze comprehensive end-to-end virtualized environments based on Citrix best practices.</p>
