

# Citrix Education XenApp Update

In February 2008, Citrix changed the name of its Presentation Server™ product line to XenApp™ to better reflect the product's core focus on application virtualization, and to underscore the importance of providing customers with an end-to-end virtualization system that incorporates servers, applications and desktops.

In alignment with the Citrix focus on application virtualization, **effective April 11, 2008 the nomenclature of Presentation Server 4.5 courses, exams and related certifications have been updated** to include the Citrix XenApp name. Please note that these updates are limited to nomenclature, and that course/exam content and certification requirements have not changed. The table below details the updated Presentation Server courses, exams and certifications, with new nomenclature:

Current Name	New Name
CCA for Citrix Presentation Server 4	CCA for XenApp (Presentation Server 4)*
CCEA for Citrix Presentation Server 4	CCEA for XenApp (Presentation Server 4)*
CCIA for Citrix Presentation Server 4	CCIA for XenApp (Presentation Server 4)*
