

## CTX-1262AW Citrix Access Essentials 2.0: Administration

CTX-1262AW Citrix Access Essentials 2.0: Administration provides the necessary foundation to deploy and administer Citrix Access Essentials 2.0.

This course covers the installation and configuration of Access Essentials using the built-in Quick Start tool. Learners use interactive simulations to configure licensing, publish applications and enable product features, such as E-mail alerting. Text instruction, definitions, diagrams, and knowledge-reinforcing review questions are also featured in this course.

### Audience

This course is intended for administrators who will install, configure, administer and perform basic implementations on Citrix Access Essentials.

### Preparatory Recommendations

Before taking this course, Citrix recommends that learners have experience installing software and using Windows controls. Knowledge of basic networking and server concepts is helpful but not required.

### Key Skills

Upon successful completion of this course, learners are able to:

- Describe Access Essentials, listing the key benefits and features.
- Install and activate a single server deployment of Access Essentials.
- Make applications available to users.
- Enable external access to applications.
- Configure Access Essentials in Advanced mode in a multiple server environment.
- Manage the various aspects of Access Essentials.
- Integrate Access Essentials into the surrounding IT environment

### Instructional Method

Self-paced eLearning

### Course Length

Approximately 5.0 hours. The course length is an approximation of how long it takes to complete this course. Learners may spend as much time as they need to complete the course, and are able to log on and off as often as desired.

### Certification Preparation

This course is not currently a requirement of any Citrix certification track.
