

CTX-1455CW Citrix Access Suite 4.5: Common Management Platform Administration

This course introduces Citrix administrators and IT professionals to common features of the management platform for Citrix Presentation Server products. Administrators are introduced to Presentation Server 4.5 from a business benefit perspective and then learn what common technical features enable those benefits.

Learners continue with an introduction to the Access Management Console, including guided practice on selected capabilities, and then proceed to learn how administrators can install, administer and support the Citrix License Server, as well as address license issues common across the functional components of Presentation Server.

Audience

This course is intended for Citrix administrators and IT professionals, familiar with Microsoft Windows Server 2003 environments. Systems engineers, analysts, consultants, architects and Citrix Partner Network members are also appropriate candidates for this course.

Preparatory Recommendations

There are no preparatory recommendations for this course. This course is recommended as the initial course for the CCA 4 certification program.

Key Skills

Upon successful completion of this course, learners are able to:

- Describe Citrix Presentation Server 4.5 and its capabilities
- Describe the common management platform and how it facilitates the management of the Presentation Server and its functional components
- Describe and illustrate installation and various common functions using the Access Management Console
- Describe and illustrate installing and configuring the license server, and obtaining and installing licenses for Citrix Presentation Server 4.5 products
- Describe and illustrate common management tasks for the Citrix Presentation Server 4.5 License Server and product licenses

Instructional Method

Self-paced eLearning

Course Length

Approximately 2.0 hours. The course length is an approximation of how long it takes to complete this course. Learners may spend as much time as they need to complete the course, and are able to log on and off as often as desired.

Certification Preparation

This course is a core requirement for the Citrix Certified Administrator™ 4 (CCA) certification.
